

### Dr. Ioannis Vogiatzakis

I am Associate Professor in Environmental Studies at the Open University of Cyprus (OUC). Before joining OUC I held posts and carried out research and teaching activities at the Universities of Reading (UK), Cagliari (Italy) and Ioannina (Greece). I have been research associate to the Mediterranean Agronomic Institute (Greece) and consultant to UNEP PAP/RAC and UNIDO on landscape assessment and GIS. I hold a Ph.D. in Physical Geography, an MSc in Vegetation Ecology, and a postgraduate diploma (PGCAP) in Academic Practice from the University of Reading as well as a Bachelor (B.Sc.) in Forestry from the Technological Institute of Education of Kavala. I am a member of the Royal Geographic Society, the British Ecological Society, the International Association of Landscape Ecology and the International Association of Vegetation Science. My research interests include the ecology and biogeography of Mediterranean islands and mountains, predictive vegetation and habitat mapping using GIS and Remote Sensing, landscape based approach to nature conservation delivery and the effectiveness of protected areas for biodiversity conservation. My research has been funded by the EU FP6, FP7, LIFE+, INTERREG programmes as well as several UK Government Agencies.
