Module Description

As part of completing the studies for obtaining a Master's Degree (Master's) in Enterprise Risk Management, students must prepare, present and be assessed in a Master's Thesis. The preparation of the Master's Thesis is one of the most creative challenges of the program as it offers the student the opportunity to demonstrate that he/she has the ability to use the knowledge acquired in the Master's Program and to complete a study on his/her own, with the guidance of the Supervising Professor. In addition, it provides the student with the opportunity to explore a topic of interest in depth by applying the rigorous, systematic and scientific approach to problem solving.

This is the first Thematic Unit of the Master's Theses series, ERM701A.
