Note:

The Open University of Cyprus, within the framework of its participation in the European Project “[University Liaison Offices with the Labour Market](#)” offers all students across its study programmes the optional, free course “[Industry Placement](#)” (ΘΕΣΠ695 and ΘΕΣΠ696). The primary aim of the Project is to enable students to gain work-related experience in their field of studies through placements in companies and organizations. These placements can be undertaken either full-time or part-time and must last at least one month, with a minimum of 160 working hours. Each student is eligible to complete up to two placements, provided that they are carried out in different academic semesters and in different host organizations. For every placement, students receive 5 ECTS credits. However, these credits are not counted towards the final degree grade and do not count toward the credits required for the completion of the study programme.
